Delivering a Quality Patient Experience

Specialties:

Primary Care, Rheumatology

19 interactive exam room touchscreens

Specialties:

Primary Care, Cardiology, OB/GYN

36 digital waiting room screens

22 digital back office screens

Dr. Fogle created a comprehensive strategy with PatientPoint® patient engagement technology, including digital waiting room and back office screens and interactive exam room touchscreens, that helped promote patient-provider discussions and improve the patient experience.

“Our decision to go with PatientPoint was really based on the variety of content, the quality of the content and the different options that were available for getting the message out to the patient.

It may start in the waiting room on a waiting room monitor, but the option of having interactive screens in the exam room was also something that was really very compelling.

=====

I demand to have my needs to bring into view --- FUCK YOU -- if that is OUT OF MY REACH!

ok?

I will also accept a call --- with the Doctor and its technology applied use that lost its intention to honor it upon my case care -- BOTH OF YOU CAN RESPOND to EXPLAIN This #HugeFail --- Do not tell me that you are confused or some bullshit -- my writing is completely coherent!

I hope you reply to some kind of timeline I can put some trust to be ease the presence that is open and showing.

tick tock -- tick tock -- tick tock -- tick tock -- tick tock -- tick tock --

time to set this conspiracy out of operation --- out of order!

This is a YouTube Video that is in the view of holding what is happening that also must be smatched to smithereens!

I have much better things than to make a correction demand here that should not even show itself in the first place.

The Murderous Police Gangs of Los Angeles

Los Angeles, America's second largest city, has a horrible secret. The Los Angeles County Sheriff's Department – the fourth largest police department in the country – harbors dozens of criminal gangs within its ranks. These LASD gangs have been involved in assaults, the creation of false evidence, and even murder. Now, with the help of the brave journalist Cerise Castle, the story can be told. A Gravel Institute documentary. To raise money for more investigative reporting on gangs within the LASD, we're selling a shirt. You can buy it at googlelasdgangs.com – all proceeds go directly to Cerise Castle, who is working on the ground to expose the racist, thuggish gangs harbored within the Los Angeles Sheriff's Department. Google "LASD Gangs"! And go to LASDGangs.com to read Cerise Castle's reporting yourself. Give us a one-time donation to help out!
