The cause of action for the event that occurred at the library puts this matter upon the hearing of the Library Board of Trustees on July 13th 2021 .

This matter, considering my history of performing work effort provided as a former staff of the library is extremely insulting and actually an offense that is a violation of the law and must be deemed discrimination -- and I am not going to just drop this.

The decision and posting of public notice [attached] reflect something sinister in the events that happened.

A 6 Month suspension of library access and use of public services without notice of such public hearing to provide the actual truth to what occurred.

To who and what violated normal customs and violated the law first was your staff.

The police were legally required to enforce a transfer of your orders that I would then have to obey to leave.

The action of the police officer to respond to my act of calling the police,

The pinned reason that I already can conceive to realize would be the result more than possible - Escapism probable.

The officer failed to bring the mission of the San Bernardino Police of excellence --- PROTECT and SERVE into his duty.

The police officer abandoned the public duty to serve the law and upon the request for verbal disorder actually violated civil laws.

Upon his arrival, had acted to a personal choice to abandon the scene and the documentation of the event.

I was not given a FAIR WARNING!

Why did the officer take his personal action to not engage in the incident in a legal means?

The officer that responded to my call -- Arrived to park at the curb on the street.

As he was exiting his vehicle, he indeed recognized me.

-- and --

I placed a reminder into a spoken calling out to him my name and a reminder to the motel events that occurred in January.

Already predicted --

The on-duty officer that was responding to a citizen's dispatch, the responding officer abandoned his duty this now June interface to the police to the needed legal process. Failing to respond to my need to collect a report and hold a true order of trespass. The document issued, I would have a due process right given of an opportunity to challenge the allegations, as this email rebuttal attempts.

By having this pattern of action to hold an official public hearing outside the affected person knowledge once again has been carefully planned into very strange things --- left unsaid here -- that occurred with an interface to different law enforcement locations --- I claim the conspiracy is an infection across much of this nation --- I claim to hold evidence that the pattern model you followed here --- is a weapon that law enforcement uses to violate citizens rights. The harm being done is documented. The need for change is reflective.

Once again, filed in court papers in a Notification of PROBABLE CAUSE -- the facts mirror the same. Because no one can challenge the authority of their wrongdoing. BUT I MUST! I maintain MORAL AGENCY on this wrongdoing. I must confront these matters forward front --- the truth must be put into a priority to stop the hate already.

This email now serves as proof of linking police agency to police agency connective reasoning to be precognitive of their intents. What we have is an agenda joined to intentionally not be able to discuss the topic of gangstalking that is affecting my life for 16 years unstoppable.

This is a 7-minute playtime AUDIO INTRODUCTION to how and why this linking can be established. What can be proven is that under disguise, we do not have two independent operating police law enforcement agencies set up here.

The efforts of community officers working for the public safety of the good and peace is not what can be mapped.

We actually have two interdependent linked actioned operations of law enforcement instilled to be linked by hate ideologies embedded in the force.

The members of such hypocrisy are the normal setup --- a hidden agenda - active in both locations.

I am fully competent to the magnitude of what such a statement says --- but it is real.

Even if just happenstance.

I claim the source of this hate malignancy infects much of the nation -- and the patterns here and there mirror this conclusion in local acts that are harming me, weapons if you might say, that remains still happening.

One of the pinnacles featured as untouchable that are affecting the policing crisis of distrust across our nation.

This is an all-out violation of the common sense of trust and integrity in the policing activity that is installed in the police agency administration command staff. ---- of true law enforcement integrity

I knew that whoever would be the dispatched officer that would respond to this request, most likely would not maintain their professional duty.

AND EXACTLY

that would be the outcome.

There are several unmentioned events happening in the community that are actually very serious that the police will not apply involvement to enforce criminal activity being targeted against me.

Ref: #Bloodroom101

In the complaint of my behavior at the library, the responding officer turned around and got back into his patrol car. Having precognitive relevance internal of the civil society to intentionally allow criminal activity to harm me that in definition to where I was going -- I was walking to the office of [HTTP://lawdepot.com](http://lawdepot.com) --- that was my intent and request to obtain the walking directions about 35-40 miles away.

3 key moments in this video

Abandoned his duty to be a peace officer in the view of the truth and the consequences that are put into this future time.

I would have gladly legally followed police authority -- but police authority will not acknowledge and process a truth that must be processed.

The officer has a conflict of interest --- and also abandoned your need to transfer authority -

You do not and did not have the legal authority to escort me off the property.

You HOLD NO ENFORCEABLE TRESPASS NOTICE.

You do not and have not the moral authority to place into reference testimonial evidence as a false witness.

In the back and forth attempt to negotiate the use of the computer's access to the internet, I finally was able to persuade the main desk clerk to have issued me a code for temporary use -- but I had only been given that code for 30 seconds before your BULLY SECURITY came over to demand I leave.

The whole matter was put into contention because I was nice in view ---but it seemed to be STAGED BETWEEN THE DESK and the SECURITY --- that the clerk knows overall that what was being done overrides what she had a public duty to have avoided.

The only element of this --- there would have been no reason to call the police in the first place.

When at the time, I knew we would be needing an officer -- I requested your staff to call the police instead of me. They refused to call in to view the police --- because the wrongdoing here --- breaks trust. Knowing that something was technically the problem that the microphone on my phone was in the most recent few days ---the other party on telephone calls can't hear me but barely.

The clerk working refused to put into their control the advice that is copied into this rebuttal.

When the loudness occurred -- It was strictly on the phone with the police dispatcher --- with no other choices.

If you really took a good faith effort to have the deed you have done dirt cheap properly focused to the law, I am not a person who is hiding in dark shadows --- but you must think it is ok to just point your weapons of false witness --- and have no impact to the harm and ramifications onto my life?

Of course, the police know my home address -- they have come up here many times to investigate my writings being sent out paradigm.

My Identity on DMV Licence is the house I am in now. Why can you not apply commons here of 2021 and respond back to my calling out for a sanity way to stop the hate already?

You have no case of probable causes to have intentionally placed abusive tone of actions, conversations that have design and purpose to not be functional. To function properly To be respectful to upwardly understand the citizen here from the start.

By the way, considering the seriousness of the backburn against me. Would you have made any attempt to put what are reality history attempts to direct messages of connection to my community awareness effort?

Did you have or not have such a history of my efforts? I do believe I have content posted onto your social media tags on Facebook.

There are social media here -- but no one helping me --- again a pattern of belonging to a greater need to block communications that are too close making awareness of this conspiracy. This is a forevermore cruel intent and design to not bring forward my participation -- a violation of the first amendment ---

So when this hearing occurred, without my calling voice representation, were any references made to the outward social media attempts I have?

Like a fish out of water flounder flapping away suffering to not be in the water and everything outward I have put into the attempt, anyone just ignoring must be a humorous way to enjoy the presence of me attempting to get attention -- set me back upright.

Reaching out to everyone I could think of --- no response.

I can pull into view the exact last attempt connections.

If a jury was exposed to this introduction, I wonder what they would think of the quality of humans on my side and yours?

That is or would have been the knowledge of who I was onto this matter when the matter was brought before the board meeting.

We are at the hands of time here.

To verify something -- you got my name spelled right on your letter -- to impose some kind of complaint,

I am a TERRORIST ---?

The police and my entire ID address and all --- enter into the logic --- of your agenda actions.

The police have had to be put into a reference [officially] to have issued that false statement against me.

I am sure that was their advice that put it into this mix.

For FALSE WITNESS is part of this procedure -- if the library was in the role acting under impartiality upon the event --- what I describe here - we would have had no issue to create contention, create my objection, and know that library services at hand were being restricted for no good reason.

The library service -- however can be taken into view - when open -- is to serve the public needs of information. It was the staff that violated my right way first and no matter what further happened - fault for the events lies strictly upon staff.

Guidelines to Issuing Trespass Warnings

The most important details about trespass warnings are:

1. They are issued directly to the person being trespassed
2. They are specific as to trespassed location and enforceable time period
3. It can be verified that the warning was given and that verification can be presented in court, in the event the person pleads "not guilty" to the charge

A verbal warning may be given, but a written warning is more likely to be prosecuted. Again, the point is to be able to prove in court that the person was

given fair warning.

Enforceable trespass notices can be established in several ways:

1. If an officer is already on scene and in contact with the offending individual, at your request, the officer can verbally inform the person they are trespassed; the officer then makes note of that warning here at the police department, and should give you the case number, that way the documented warning can be located again in order to issue a ticket to the same person later, should they violate the warning
2. You may hand-deliver a written trespass notice directly to the person, or send it by certified mail (return notice requested, for delivery verification); you should have a duplicate saved for your records, and send a copy to the police department for our files
3. You may give someone a verbal notice, but this is the least effective method; if you choose this, it is recommend that you have a witness who you can produce in court, and also reduce the notice and service date to writing in your own records

****Page 2 of this document may be printed and used for actual trespass warning notices****

Can we connect to fix this --- or will this just be ghosted with the intention to keep silent and cover up a conspiracy?

Can honesty be the best policy --- and will a conversation begin, hold, resolve, and close properly or will the conversation go out to be GHOSTED for matters to ignore the facts --- the truth of what occurred is not worth the needed amends to correct.

Just leave it out --- and the derailed train of holding civic level affairs in a natural way --- without violation of my basic human rights - Title 19 and actors involved to violate GOD's RULES in the ten commandments ---

What does the Bible say about a false witness?

false
witness

ANSWER

Bearing false witness is mentioned many times in the Bible, exclusively as something bad. "You shall not bear false witness against your neighbor" is the ninth of the Ten Commandments that Moses brought back with him from his encounter with God on Mount Sinai ([Exodus 20:16](#)). False witness, or spreading a false report, is associated with being allied with the wicked ([Exodus 23:1](#)), willing to do violence to others ([Psalm 27:12](#)), and sowing discord among brothers ([Proverbs 6:19](#)). The Bible calls bearing false witness [lying](#) ([Proverbs 14:5](#)) and compares a man who bears false witness against his neighbor to a violent weapon ([Proverbs 25:18](#)). Lies harm people.

A false witness is one who stands up and swears before others that something untrue is true, especially with the intention of hurting someone else or ruining his reputation. This happened to David ([Psalm 27:12](#)), Jesus ([Matthew 26:60](#); [Mark 14:56](#)), and Stephen ([Acts 6:13](#)). When the wicked Queen Jezebel wished to procure a vineyard for her sulking husband, [King Ahab](#), she employed two false witnesses. Naboth, the rightful owner of the vineyard, was seated in an honorable place on a day of fasting, but "then two scoundrels came and sat opposite him and brought charges against Naboth before the people, saying, 'Naboth has cursed both God and the king.' So they took him outside the city and stoned him to death" ([1 Kings 21:13](#)). What the "scoundrels" said against Naboth was absolutely untrue; they were bearing false witness with impunity and with the queen's blessing. As a result, an innocent man was killed. When a person is righteous and his enemies can find nothing with which to blame him, bearing false witness is a common weapon.

The lies told by a false witness come from the sinful human heart—along with murder, adultery, sexual immorality, theft, slander, and evil thoughts ([Matthew 15:19](#)). Jesus said that man is defiled by these evil things that come from the heart. The only possible cure for an evil heart that bears false witness is to receive a new, pure heart, which can only be given by God ([Ezekiel 36:26](#)). When a person is indwelt by the Holy Spirit, he will be like a fresh spring or a fruitful tree or a budding vine, bursting with good things ([John 7:38](#); [Psalm 1:1–6](#); [John 15:4–5](#)). The old is gone, and the new takes its place ([Ephesians 4:22–24](#)). Those who are in Christ have a new heart that speaks the truth: "Each of you must put off falsehood and speak truthfully to your neighbor" ([Ephesians 4:25](#)). A person who bears false witness is controlled by the flesh rather than by the Spirit of God, and he should repent of that sin and turn to Christ.

"There are six things that the Lord hates, seven that are an abomination to Him...a lying tongue...a false witness who breathes out lies..." ([Proverbs 6:16–19](#)).

Maintained library patrons walk-in use of computer lab. Full implementation of information databases including user's file, software catalog, and lab users login interface. Reservations could be made up to two months in advance and computer time was restricted to two hours per day. The lab's desk manager maintained currently logged in users, remaining time, and any checked out software materials being used at the workstations. Lab administrators could schedule class or other group reservations, as needed. Statistical usage information was reported.

• **Microlink BBS (Public Library online bulletin board system)**

Full development of user login database, public and private messaging, questions to reference librarians, information bulletins, online games, usage log and statistics features. First online in 1983 using a \$5000 Corvus 10mb hard drive and a Hayes 300bps Micromodem. No commercial BBS software packages existed for this type of application. Microlink BBS was the second public library in the country to offer such dial up services next to The Chicago Public Library. Microlink was later renamed to LOLA (Library On-Line Apple).

Welcome to: *The Mindway of

"The pathway that the mind

travels..."

We know it exists today because so many of us have personally experience it and speak about it with face to face language. We have it,

but it has an unusual characteristic that provides no means of a historical chronicle should it decay to ruins. It is silent to our ears; no audio recording can exist. It is invisable to our eyes; no photographs can be taken. Can't touch it, no smell or taste. It does exist and what exists around our world usually follows either natural effects of time decay and withering away by accidental or hostile acts of destruction. Should it disappear it will be lost.

Whitney said the actual cost to the library of a book being put on reserve is \$1. And the actual cost of attempting to find a book title from another library is \$5.

The imposition of the new service fees will be reviewed in

replacing film projection equipment and repairing it, he said.

Also, film damage fees are now 50 cents per foot with a maximum charge of \$20 per reel, said Whitney. The expense is a direct reflection of the cost charged the library for replacement footage, he added.

As examples, Lambson offered: How do I say this phrase in German? Who are the five richest television and movie stars? What are the most vulnerable points in the United States to Russian missiles? How many drunken driving arrests have there been and how many convictions?

The library, which obtained microcomputers three years ago, has had the bulletin board capability for some time, but it was not utilized until last December when

18-year-old James Driskill of San Bernardino designed the library's system. He was assisted by his best friend, Eric Maier, 17, of Rialto.

Three of the city's four library branches have microcomputers, the exception being the Coddington branch. Computer use is free and limited to one hour for each user.

When the new Norman F. Feldheim Central Library opens in mid-1985, it will feature a laboratory with 30 microcomputers.
