CC: Jeff Weiner CEO of LinkedIn via Fax

Master CEO Jeff Weiner - Da Boss	1 (650) 810-2897
----------------------------------	------------------

This is the second time in a few weeks that my account has gone into restriction.

Apparently, this is going to be an ongoing problem.

There is no reason this time for sure that such an action should have taken place.

I am still on restriction --- can you tell me why?

There is a certain "faction" of people that are in opposition to the efforts I am making online.

This opposition of people are quite powerful --- in fact, they are doctors and lawyers, etc.

'My activity on LinkedIn is primarily to expose a hate conspiracy that is exposed in the Ryan White Care Act funded social services that is showing to be a problem systemic across the nation in multiple regions. This problem that I describe directly involves social services to then infect doctor provider care in HIV/AIDS services.

This might sound out there, but this conspiracy effect is easily corroborated by researching negative outlook employee reviews on Glassdoor for these social service agencies. They, the holders of this conspiracy, do not want this truth to be known.

You can research Glassdoor one agency name at a time which by having this data spread out makes this not easy to come across.

So, I have compiled and copied many region to region glassdoor reviews for Aids Service Organizations in this folder:

[<http://webdomains.realuphuman.net/glassdoor.com/HIV-AIDS-SERVICES-ORGANIZATIONS-EmployeeReviews/>]

My latest public post placed my recent court case into view of this conspiracy. Let me make it plain and simple for you,

They don't want the truth to be told. They flag material online that promotes the exposure of this truth. This truth must be told and is one of the foundational factors causing the #MassGunShootings epidemic across this nation.

In this case, and this case is that extreme, it cannot be buried under the rug this time to remain secretive.

I would not even doubt that if my LinkedIn account activity is found to be violating the TOS/rules, that access to my account has been compromised by these people.

I do not know what I could of possibly done this time to violate the rules --- I was in the middle of typing an Inmail to a "established" connection from last

year [San Bernardino County Bar Association].

In that I make it a point to document every aspect of this effect of the oppression of truth at the hands of blocking on social media, now account restriction on social media,

they are powerful people with persons of substantial influence in many aspects of social media organizations. This is a hate group with a substantial collective membership

to be a force of life involvement interference onto targeted individuals they have chosen to attack with their hate-based activities.

This is found online under the subject [#GangStalking].

I have law enforcement introduction connections in this matter that I will be following up with. If you, the human reading this support ticketing message, a member

of these hate groups or in alignment to their activities and dismiss/deny my appeal for reactivation of my account, I will be following up with these law enforcement contacts to

report suspicious activities of staff under the organization of LinkedIn.

Please see the exception that I am being targeted by a hate collective and reply to what exactly is the problem with the appeal process on my account.
