Omg people! Enough is enough!

I'm Tired

Of repeating the dysfunction of communications - intentionally placed against me.

Don't insult my intelligence!!

This is real 911 Text Interface...

With Real Police 🚔

Involved into these matters!

Continue to read.....

This update to myHIVTeam will be rejected --- account is in an restricted status - unjustly and illegally!

Not one person will stand on my side --- to support. Me, and this real story.

I am real tired of repeating dysfunctional relationships!

This time !

This will not get lost!!

All of these materials are relevant to secure an indeclinable deliverance of the truth to bring forward proper 'Centered' interface in my healthcare.

I'm Tired
Real !! Can I get a real Doctor to treat my HIV real?

My real full name is:

James Martin Driskill
Registered as a patient

Wesley Health Centers

Serious is a heart attack

I don't have time to piddling around with nonsense.

I don't have time.

i have a recent blood test result in my CD4/CD8 ratio of

believe it or not

believe it or not

it's not possible to be this level at the stage

it should not be this way

but it is.

CD4/CD8 ratio . 0.25

<https://www.verywellhealth.com/how-important-is-your-cd4-cd8-ratio-48781>

A CD4/CD8 ratio is considered normal when the value is between 1.0 and 4.0. In a healthy individual, that translates to roughly 30%–60% CD4 T cells in relationship to 10%–30% CD8 T cells.

With that being said, increasing focus has been placed on the use of CD4/CD8 ratio in people with [long-term HIV infection](#). Recent studies have suggested that people with a low CD4/CD8 ratio who have been on treatment for years are at an increased risk of non-HIV-related illness and death.³

It can also be used to predict the likelihood of immune reconstitution inflammatory syndrome (IRIS), a serious reaction that can sometimes occur when a person starts HIV therapy.⁴ If the baseline CD4 count is low and is accompanied by a CD4/CD8 ratio below 0.20, the risk of IRIS increases significantly.

CD4/CD8 ratio . 0.25

Is low! Extremely low!

I need a doctor who will accept the gravity of the situation and that will NOT place me into some sort of substandard care.

That's what I have right now.

And it is quite shocking... !!

<https://npino.com/npi/1851498729-sudhakar-v-mallela/>

@Disqus commenting was placed -- still no resolves

My current assigned HiV doctor, is a reassignment of HIV treatments after being terminated from care in March of 2019 from Doctor Shigeno of Borrego Health.

My first encounter with Doctor Mallela was 3 years ago according to the @Disqus commenting applied to his NPINO record.

No acknowledgement of my communications onto this doctor.

My last appointment was February 7th 2023,

Supposed to be an interface with disability advocacy agency of

[Http://rollingstart.com](http://rollingstart.com)

That failed!

So, my asserted needs into a discussion with a doctor can not proceed.

The fact that my mom's sitting there - to not be a fully supportive of her son. .To trying to egg me on to allow the doctor to talk when he's absolutely not receiving the fact of the case,

He, as the doctor, can not support hi what has happened.

--- unless he indeed agrees to the hidden agenda that I am being targeted and subject to.

And how my very own mother does not place that role to have the doctor corrected.

I am supposed to be agreeable to this dysfunction paradym of imbalance in communications?

No fucking way!
Not Gonna Happen!

How and why my very own mother has been a disconnection of a supportive function into these circumstances are also quite disturbing.

unless she indeed agrees to the hidden agenda that I am being targeted and subject to.

See: "family" references in this:

<https://www.mylawquestions.com/what-is-gang-stalking.htm>

Gang stalking targets might also experience hang-up calls or calls from wrong phone numbers throughout the day. Attackers may enter homes illegally or employ the **assistance of the target's friends or family**. In an attempt to confuse the victim or to cause them to doubt their own logic and reasoning, stalkers might rearrange or steal personal items in the work place or home. The criminal offenses of stalkers may become more aggressive or violent against the target, family members or pets.

This is not a joke!

In the history of all this,

My family and especially my mother not focused to be an involved (caring concern) to all of the events that has happened.

Doctor Mallela is a element of mistrustful relations.

I can't seem to get it through your brains people, including my mother.

My very own mother in view of all of this is an element of mistrustful relations. (Seriously said here)

There is something weird here that be cannot allow to be passed into the next day!!

I refuse to participate in this conspiracy without a voice!

No fucking way!
Not Gonna Happen!

Now if you think language is a problem we have another problem here language is not a problem.

Language in that word that very very single word is perfectly acceptable perfectly allowable and is a absolute truth on this it is acceptably professionally appropriate.

On the site of LinkedIn the number one most professional website there is that we attend to there are actual companies on there with the word of course in their name of course of course of course that's the truth.

Example that applies to the medical industry here is a actual 501c registered Internet domain and its subsequent LinkedIn profile are the same

[Http://fuckcancer.org](http://fuckcancer.org)

We're all adults here so let's start acting like it.

For the intent of disclosure here I have no prior contact with the site of

[Http://schoolofconsent.com](http://schoolofconsent.com)

I'm only providing them in this address as a resource to what we should be thinking about rather than allowing this to go on without being discussed and put into perspective.

I really don't need to go over there and look at the materials there to know that that is the model for which I'm holding on to here to force upon the communication changes exchanges with my medical care.

Consent is consent no matter what it applies to.

I do not give medical Care team consent to intentionally kill me,

Or by way of

Intentional separation or interference in the connection of communications.

Violations of article 19, declaration of human Rights.

<https://www.un.org/en/about-us/universal-declaration-of-human-rights>

Article 19

Everyone has the right to freedom of opinion and expression; this right includes freedom to hold opinions without interference and to seek, receive and impart information and ideas through any media and regardless of frontiers.

I do not give consent for you to remain in an intentional state of ignorance that kills me.

To remain there absolutely in ignorance, to not have access to

Patient-and-Family-Centered-Care

<https://www.ipfcc.org/about/pfcc.html>

Is being audited.

I do not give my consent for you all to remain there in an intentional ignorance to kill me.

This includes my very own mother (Veronica Ann Warnick Driskill).

As applied,

I do not give by consent for you, Veronica Ann Warnick Driskill, as my mother to remain there is a silent need to not communicate with your son to remain there in an intentional ignorance to kill me.

See: Agnotology ; The study of intentional ignorance.

And as it is by standing,
Stated in my address below,

A fact onto consents to be followed,

I do not give my consent holding an invention to kill me.

An invention of technology that I can prove is real.

#ConspiracyExposedTerminatesASAP

#ConspiracyExposedTerminatesNow

#BigManKillingTechBug

It is time for this to terminate.

It is time to realize the damages.

It is time for a reckoning.

It is time to be completely honest t, open, and with two due diligence, have some accountability upon your Hippocratic oath.

These matters are grave.

These matters are true realistically true.

Can I have an opening to a actual doctor that will have an actual way to have a discussion?

Or will I be thrown into the gutter and throw back into the street and phone back in the wolves that won't stop nipping at my feet?

----- (MyHivTeam : Status Update - Will be rejected) ---

I am writing an update status on my user account at myHIVteam..

I already know it's going to get rejected. My account is on suspension from updating. It has also been fully banned recently.

Somehow the reversal of the actual account being completely banned was reversed but I still don't have right access to.

The only way to test this is to create a status update and have it rejected. This one will be a little bit different.

But what I do know I know and when I don't know I say so.

This happened before and it happened and it will happen again if I do another account eventually you will have it again I can create a new account new ID and start all over and eventually it will come back and do the same thing. A fool's errand is what that is.

This time I'm making a documentation record that this is not activity there's normal and I do not consent to being a targeted individual victimized by this process.

The fault of this is yours truly yours myHIVTeam and myHeathTeams.

Whatever is involved in the filtering of a particular user's communications to put everything into the bit bucket which is what I suggest.

That's your obligation to make sure your code is always compliant to not have any extra code that is not an owl set this way sanctioned by our government.

And if it is sanctioned by our government you're causing a direct violation of the first amendment..

You have to audit your code that's running because you have to do that that's your obligation that is the way the laws are in the United States of America it is your corporate responsibility make sure your software is not violating the law

Which it is.

and blame is yours.

Last time this happened,

I went over to LinkedIn. I have the same problem with LinkedIn by the way. I now have a suspended account at linkedin, again.

I went over to LinkedIn to look up another staff member myHealhTeams. I proceeded to contact that person and I did not get anything from it but I did except anyway.

Pointless to try to figure this out without having a true sense of a clout to handle this properly.

There is no justifiable reason why my account is suspended on my
([Http://myhivteam.com](http://myhivteam.com)) under the umbrella of healthcare at
(<http://myhealthteams.com>).

There is no justifiable reason at except for is has been used as a measure of ongoing active cyberwar against my availability of site to find support to tell the truth in these circumstances.

As such, that places the site of myHIVteam directly to be involved upon a conspiracy.

To fix this all you have to do is have a discussion but you can't because there is an involvement of interfering technology.

I'm going to ride out anyway because I know what it is and I'm going to have what I'm going to have eventually somebody's going to have the idea that the patient's right the patient's right and we've done something wrong so bad so wrong so bad against him that you're going to fucking have to apologize,

Somewhere you're going to have to apologize in the course to which is on the highest order of public presence.

I'm not keeping secrets.

----- (update posting to myHIVTeam) -----

Do I have write (update privileges) status on my account named { MartinHouser } with the email address (factsdontlie.hatedon.idied@gmail.com) on this site of (<https://myhivteam.com>).

I will assume that the message I keep receiving will pop-up the same as before.

The message that I received is the deception and not accurate the true position.

This account status of suspension of restriction to disable my ability to post updates o unable is irrevocable – unjustly applied against me.

There is or is not a human involved in the analysis of what has happened.

I demand an involvement of a human to determine what has placed this account, whether that was a human involvement or an automated script.

Whatever this violation is, not truthful to the orientation that this citizen is being subject to outside involvements that are extreme.

My full access myHIVteam should be restored. With a notation of the should not happen again. Any less than that is a continued violation of the law.

As point blank statement of what is happening here:

This is UnAmerican!

A technology overlay and it's caused to affect is carefully being said here truthfully present. That presents can be beyond a reasonable doubt proven. That's court level testimony proven.

The failure for this government do not assign this as it is as it is a weapon of war

i Tell you now - as discovery --

This correspondence will be lost to the urgency to not assign this as a part an overall address as an

National Security Matter

of an

emergency class status.

No response = confirmation of an ongoing conspiracy.

This is involved and very complex but what is put here in this attempt to update which will be rejected.

These two key people personnel in our federal government are aware of my presence. They are aware of my activity and they're aware of their own decision making process that is contrary to a resolve of these matters.

This medical field in the treatment of HIV/Aids - the treatment and prevention is under the authority of the United States federal government,

Health and Human Services,

The director for the policy of privacy in the healthcare system is Timothy Noonan.

Email note:

Mr Noonan is now the privacy director,. Previously though I have email correspondence from and a letter from him in the mail is the one who authorized the letter of result when I reported and complained about Dr Mermin blocking me on Twitter which is against all hells bells the first amendment. This is in the period to which after my disconnect from Borrego health and my doctor there -- Dr Eric Tomoni Shigeno, who

happened to also now from this day looking backwards be involved somehow to what was happening with Borrego Health

These are evidence that I know proves beyond a reasonable doubt there is a conspiracy here and by doctor is supposed to be on my side not theirs.

This event also in the investigation of what doctor signal did in my last HIV care terminated my relationship hasn't unusual effect here.

There is some records alteration when I know they should not be.

I had placed comments using the interlaced feature of the @Disqus tools on the page.

Since the record of the page itself is been removed it makes my comments not accessible to the public or as unlinked from the public record.

This page went missing after Dr signo died. He died but I'm telling you he died and that does not just make an MPI you know the record go away because he died.

Some really underhanded stuff is going on here really underhanded.

But somebody is so afraid of what I had said would be the truth that could be rationalized. But I still have it in my container folder for discuss but nobody is able to take a hold of the truth because I am being subject to an extreme condition and I do not give my consent for this to continue any longer.

As a simple construct that if the federal government is going to attack its own citizens.

These two key personnel would be the persons involved to the policy that is enacted and if they are just turning blinds eye, they've intentionally placed scheme of

#BigManKillingTechBugkilling murdering our population and inclusive of me.

Murdering the life presence of citizen James Martin Driskill.

The update status of this site is in high question involved in that conspiracy!

My account suspension is irrevocable. Because there's no human being actually involved in the review process

As it says there is where is the response to my calling for help with customer support?

I'm going to get a doctor this time this time who's going to receive these communications!

My real full name is:

I don't have time.

i have a recent blood test result in my CD4/CD8 ratio of

it's not possible to be this level at the stage

it should not be this way

but it is.

CD4/CD8 ratio . 0.25

.
A CD4/CD8 ratio is considered normal when the value is between 1.0 and 4.0. In a healthy individual, that translates to roughly 30%–60% CD4 T cells in relationship to 10%–30% CD8 T cells.

With that being said, increasing focus has been placed on the use of CD4/CD8 ratio in people with long-term HIV infection. (<https://www.verywellhealth.com/how-long-can-i-live-after-getting-hiv-48889>) Recent studies have suggested that people with a low CD4/CD8 ratio who have been on treatment for years are at an increased risk of non-HIV-related illness and death.³

There is something weird here that we cannot allow to be passed into the next day!!

(factsdontlie.hatedon.idied@gmail.com) on this site of (<https://myhivteam.com> (<https://myhivteam.com/>)).

I will assume that the message I keep receiving will pop-up the same as before.

The message that I received is the deception and not accurate the true position.

This account status of suspension of restriction to disable my ability to post updates or unable is irrevocable – unjustly applied against me.

There is or is not a human involved in the analysis of what has happened.

I demand an involvement of a human to determine what has placed this account, whether that was a human involvement or an automated script.

Whatever this violation is, not truthful to the orientation that this citizen is being subject to outside involvements that are extreme.

My full access myHIVteam should be restored. With a notation of the should not happen again. Any less than that is a continued violation of the law.

As point blank statement of what is happening here:

This is UnAmerican!

A technology overlay and it's caused to affect is carefully being said here truthfully present. That presents can be beyond a reasonable doubt proven. That's court level testimony proven.

The failure for this government do not assign this as it is as it is a weapon of war

i Tell you now - as discovery --

This correspondence will be lost to the urgency to not assign this as a part an overall address as an

National Security Matter

of an

emergency class status.

No response = confirmation of an ongoing conspiracy.

This is involved and very complex but what is put here in this attempt to update which will be rejected.

These two key people personnel in our federal government are aware of my presence. They are aware of my activity and they're aware of their own decision making process that is contrary to a resolve of these matters.

This medical field in the treatment of HIV/Aids - the treatment and prevention is under the authority of the United States federal government,

Email note:

Mr Noonan is now the privacy director,. Previously though I have email correspondence from and a letter from him in the mail is the one who authorized the letter of result when I reported and complained about Dr Mermin blocking me on Twitter which is against all hells bells the first amendment. This is in the period to which after my disconnect from Borrego health and my doctor there -- Dr Eric Tomoni Shigeno, who happened to also now from this day looking backwards be involved somehow to what was happening with Borrego Health

These are evidence that I know proves beyond a reasonable doubt there is a conspiracy here and by doctor is supposed to be on my side not theirs.

This event also in the investigation of what doctor signal did in my last HIV care terminated my relationship hasn't unusual effect here.

There is some records alteration when I know they should not be.

I had placed comments using the interlaced feature of the @Disqus tools on the page.

Since the record of the page itself is been removed it makes my comments not accessible to the public or as unlinked from the public record.

This page went missing after Dr signo died. He died but I'm telling you he died and that does not just make an MPI you know the record go away because he died.

Some really underhanded stuff is going on here really underhanded.

But somebody is so afraid of what I had said would be the truth that could be rationalized. But I still have it in my container folder for discuss but nobody is able to take a hold of the truth because I am being subject to an extreme condition and I do not give my consent for this to continue any longer.

Hooray finally maybe..

The use of support ticketing at SoundCloud and at myHIVteam has indeed combined these matters.

You're included Cristina.

It's not going away.

I need a comprehensive person to receive this complex issue .

I need that to be incorporated into my medical care.

There is no ifs ands or buts about it..

This must be done..

This is an alternative email address for

Wesley Health Centers

twait@jwch.org

This should put that person into a support ticket. That support ticket has two other support people

SoundCloud support - for there are audios posted there to the needs of patient to bring forward these patient concerns - immediately!

myHIVteam support - site use has been restricted and it should be there's some interfering elements that needs to be human investigated and corrected.

I don't know what to do if they don't respond I'm just leave it open. I need somebody to actually contact these people and I need you to put yourself into the ticket which is open.

Please Christina,.

Use the multiple party support ticket that I received to communicate to so far who has put into view.

I am done with struggle to get communication standards enabled..

Every single thing that I do has an integrity problem that I can't trust.

Is them not me.

Transportation provided by Wesley Health Center

I have a feeling you knew me beforehand.

beforehand

who I was

(A targeted individual)

and the resistance that I had just to get to this point is amazing.

that you don't know,

If you don't straighten this up real quick,

you're going to be really really hurting.

To explain this record of what's going on here.

If you don't provide me with an access to medical care like normal without interference,

Everything and everyone corruptible do this cause?

This cause to insist that you kill me instead of providing me with a salad of care?

Oh my God you guys!

I already have contacted the HHS and the HRSA in the problem here locally trying to get a doctor.

You really should look at the Google reviews for prospect medical.

I think it all is laid out there pretty much confirmed what I said.

In all of my efforts in all of my efforts in this people,

Grammarly issued me a score in productivity.

They said to me:

Productively : New Record

You were productive than 99% of all Grammarly users.

Wow people wow.

I still have to deal with all the nonsense and deal with these people who think they are fooling somebody they're not fooling me for sure.

Y'all think you have it all worked out. To put into place and informational quarantine and the person can't get out of it.

I'm saying I'm going to just I can't believe it you have done this and it's active!

So Unamerican!

Every avenue that I reach to has been denied access to a normal considerate citizen to government to then medical Care and Doctor interface.

It's not my responsibility to actually adapt the change to this.

But you have a responsibility not to kill me.

Do not insult my intelligence.

Uber Transport,

From San Bernardino to Los Angeles and back,

The opening of the transport itself at least something was offered in view of difference (🙏) that makes me think this is going to actually change.

I am lost to the fact that there is no video video evidence for what got into the record.

Scheduled as a original trip to Los Angeles appointment in person, 2A conference appointment..

That would not have happened if I didn't comment into this, question the facts of this, and say hey -- to the alert notification channel that was giving me inaccurate information.

Where's the telemed information?

I did not visit their office.

This is all evidence for the record.

Truthfulness of the record.

I was told it's going to be a teleconference meeting.

Was scheduled and notice that I got said wear a mask.

James, please confirm your appt with Wesley Health Centers on Thu Mar 02 2023, 2:30pm. 954 N Vermont, Los Angeles, CA <https://well.app/Auy6Cy> Reply Y to confirm, N to cancel.

James, your appointment is scheduled for Thu Mar 02 2023, 2:30pm at 954 N Vermont, Los Angeles, CA. Please arrive at 2:15pm. Please wear a face cover.

That's not an accident. That is actual conspiratorial actions in this I can tell.

I said in reply,

Could be a teleconference meeting right

Er (should),

I received no reply or know nothing nothing just a change.

I didn't get over sorry or nothing no human involvement at all in the conversation.

That's the key that why this is continuing on to be parts of a conspiracy.

Something about this does not solidly feel right. And that's not my responsibility to fix. It is my responsibility to make sure that I live and not die.

Gee whiz people when are you getting a clue this is so wrong so wrong with you all so wrong!

Hi James your telehealth enrollment appt from Wesley Health Centers on Thu Mar 02 2023, 2:30pm. Please be aware representative will call you from a private or block number at the time of telehealth appointment, so please have phone with you 20-15 mins prior to the call.

There are a couple of obtaining inquiries here that I put into the record. There's something you know I have to think that there's always something going to go wrong have to be double protected extra protected to make sure that everything's exactly perfect. Cuz something's going to go awry. I know it.

I said when I got the notice of change of appointment type,

I said,

I guess you actually do pay attention. Thank you

I am not really familiar with this technology. I do believe it's going to be all working because the last time I used it was fine.

A second reminder at 2:03pm,

Hi James your telehealth enrollment appt from Wesley Health Centers on Thu Mar 02 2023, 2:30pm. Please be aware representative will call you from a private or block number at the time of telehealth appointment, so please have phone with you 20-15 mins prior to the call.

I said,. At 2:34pm

Does this pass to a human?

I don't know exactly what I'm expecting it's 2:30 now and I don't know anything about this technology really

I took a snapshot of my settings to show that I definitely don't have blocked from unknown numbers on my phone.

This is a game a staging game who's going to upstage the next.

Seriously people I have to be this detailed to capture the fact that you're messing up. Seriously messing up. A single step of this.

I put into the record, at 2:38pm

I received no call no communication at all

This is what I received

Hi James, We have forwarded your inquiry to our administrator and enrollment representative from our Wesley Health Centers-Vermont to further assist you with your request and will contact you shortly. Thank you.

And the time went ticking by tick tock tick tock tick tock tick tock by.

That should have been a actual telehealth appointment.

It didn't happen the way it's supposed to.

We straightened everything out?

No we have not not even close.

I've pushed some information to that channel and it got bumped a few times it says didn't recognize something that's not.

I sent

I was told that I have an appointment on the 6th of March that was not in this notification channel can you please explain why there's an appointment scheduled outside of my own knowing?

But finally I got this as a response,

Hi James, We have forwarded your inquiry to our administrator from our Wesley Health Centers-Vermont to further assist you with your request and will contact you shortly. Thank you.

People please it's obvious!

I will not accept a substandard of care and will refuse to enable such pathways.

Diversions are extremely expected and I am completely completely armed ready and willing to go to court.

But I probably will die first before that could even begin the process

.

You have all really done fucked it up.

Seriously it's time to have a conversation about the heart of the matter.

And it's time to have a doctor in my care that can have an honest discussion.

Don't insult my intelligence.

Provide the access to care that I have the right to.

The legal definable right to.

The human definable right to.

Otherwise you're violating my rights.

I don't think that's very nice.

I don't think it's very nice that you're violating my rights so that I die.

Seriously

According to the law of the United States of America. Federal code section title 18 section 242.

Deprivation of rights under color of law.

Should I die because of this particular problem of not being able to have adequate health care

for which my rights have been violated time and time again even up into perhaps Wesley Healthcare.

This is the law that is active current.

I just don't understand you guys.

I can't see how you sleep at night.

DEPRIVATION OF RIGHTS UNDER COLOR OF LAW

SUMMARY:

- Section 242 of Title 18 makes it a crime for a person acting under color of any law to willfully deprive a person of a right or privilege protected by the Constitution or laws of the United States.

For the purpose of Section 242, acts under "color of law" include acts not only done by federal, state, or local officials within their lawful authority, but also acts done beyond the bounds of that official's lawful authority, if the acts are done while the official is purporting to or pretending to act in the performance of his/her official duties. Persons acting under color of law within the meaning of this statute include police officers, prisons guards and other law enforcement officials, as well as judges, care providers in public health facilities, and others who are acting as public officials. It is not necessary that the crime be motivated by animus toward the race, color, religion, sex, handicap, familial status or national origin of the victim.

The offense is punishable by a range of imprisonment up to a life term, or the death penalty, depending upon the circumstances of the crime, and the resulting injury, if any.
