# Fact Check-No evidence of pandemic ‘mass formation psychosis’, say experts speaking to Reuters

By Reuters Fact Check

---

## EXCERPT:

Dr Robert Malone, previously fact-checked by Reuters [here](#) and [here](#), told The Joe Rogan Experience that “mass formation psychosis” is a phenomenon that occurred in 1920s and 30s Germany when a highly educated population “went barking mad”.

The phrase does not appear in the American Psychological Association (APA) Dictionary of Psychology ([dictionary.apa.org/](https://dictionary.apa.org/)), ([dictionary.apa.org/browse/m](https://dictionary.apa.org/browse/m)) nor does it appear in the PsycNet database of published research articles ([here](#)), ([here](#)).

Numerous psychologists have also told Reuters that such a condition is not officially recognized.

ay Van Bavel, Associate Professor of Psychology and Neural Science at New York University, said the term “doesn’t exist as a real academic concept”, adding: “I’ve been studying group identity and collective behaviour for nearly two decades and just published a book on the topic ([www.powerofus.online/](http://www.powerofus.online/)) and not once have I come across this term.

Reuters also spoke to Steven Reicher, Professor of Social Psychology at the University of St Andrews, who has studied crowd psychology for more than 40 years. He described the concept of a “mass psychosis” as “more metaphor than science, more ideology than fact”.

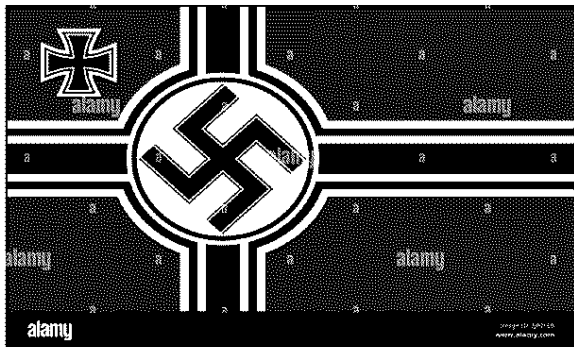

“It arises out of mass society theories and crowd psychology theories which developed in the 19th century, and which reflected a fear of the masses,” he said. “The claim was that people in the mass lose their sense of identity and their ability to reason, they regress to an inferior mental state where they are manipulable by unscrupulous leaders.

“It has been totally discredited by contemporary work on groups and crowds.”

Van Bavel, who said he found the idea of mass formation psychosis “reductionist”, highlighted a different account of the role of psychology, groups and leadership in the rise of Naziism ([here](#)).

Shall We continue to QUOTE from the REUTER'S FACT CHECK?

“What is true, of course, is that people do have to make sense of a confusing and complicated world with different accounts coming from different sources,” said Reicher.

... who do we listen to.

That is a matter of trust and of our social relationship to the source of information.

So, the creation of a sense of an establishment enemy who wants to control us is certainly important.

It makes the establishment of trust an absolutely critical aspect of [ our society's distrusts ] and hence such things as transparency, respect, clarity etc. become critical.”

### REFOCUSING FROM ABOVE

He added: "But telling people who disagree with you that they are deluded and in a state of psychosis is essentially a device to silence them and a form of disrespect. It alienates and hence undermines an attempt at dialogue. It isn't an explanation of the problem; it is part of the problem."

Seriously! As for what happened, I have to call my mother's doctor tomorrow. To report my mother is a danger to herself.

-----

This is going to be a "wild one" to understand. My name is James Martin Driskill and indeed I do have a presence online of what is a school. I refuse the concept that the persons who are face to face living in

the house that I grew up in, the family home since I was age 5, now 56, is an allowable "hostile environment" that recently my nephew [ Brother's Son ] did indeed KICK IN my bedroom door. I have been here in this house again since July of 2017. My mother tells me she supports me but really is a creature unmotherly. I am trying to be nice here. There is an underlying story that is one to see the reality of -- and as of April 6th, 2020, there begins to find actual scientific research posted on the National Institutes of Health [ [niv.gov](http://niv.gov) ] the subject matter that for now, I am not going to mention. This condition that I am under, then obviously applies to a large collective of persons who are living in the United States of America. My father passed away in 2013, however, in 2006, when I had the first created an internet domain of substance in view of the mission of a man here and peacebuilding, I asked my father for permission to register [ [@gruwup.net](mailto:@gruwup.net) ] at this house address when in defeat in Oakland CA -- I had to come back to this house. My personal entire background residency is screwed up seriously. There was an eviction case and a hate harassment situation that occurred in Oakland and once again in Denver. The region-to-region experiences of this outside interfering presence in my life are noted in the [NIH.GOV](http://NIH.GOV) research first posted on April 6th, 2020. As of current, there is actually 3 separate research finding publications on the subject. This family's values are completely twisted. I have had to dial 911 several times over the years on the view of my own knowing the escalating energy under this roof is not right and not peaceful. The matter can not be resolved. I am stuck! Once again, now we have to consider and understand how the San Bernardino Police and San Bernardino County Sheriff's office are involved. I think the best way to make it understood is in a few that might bring resonance to what I am needing- I am needing to be able to hold and keep the mindset of school orientation that my father did give me permission to use this address. And if that is not what a family takes into view, as a common value, they are outside of peace. They are doing exactly what I am suggesting. They are gaslighting me. Mentally abusing me. Taking no reason to respect me in this house. This house is my mother's --- but in the view of the law -- I am a tenant. My mother is not a responsible adult. In fact, she at 80 might indeed need to be put into a mental observation situation in a hospital for doing these actions against me and they are documented. As far as the San Bernardino Police are considered here, the Auditor's office of the State of California recently released a report that had 4 police agencies in view of this audit. I call the audit in question to a grade of F.

<http://auditor.ca.gov/reports/2021-105/index.html>

You will find this quite strange I think. The reason why most likely is something that goes to how I do not feel very safe at all in my very own hometown. [ why? and what? or who? ]

--

#### Agency Comments

Each of the departments that submitted written responses to our report generally agreed with our recommendations, with some exceptions. Stockton Police did not clearly state whether it would implement our recommendations but noted that it would analyze our audit and see how it can align its policies and procedures with best practices. San Bernardino Police did not submit a written response to our report; however, we incorporate its perspective on our findings and recommendations throughout the text of the report.

Again, does that say formal? I am writing this most formally. Yes, That is my skill set. Yes, I am the owner of a school for peace building and also as an adult consent thought and practices school. A startup project in Denver Colorado. OMG [ Bark.com? ] BARK BARK BARK -- SCREAMING -- NEEDING THE BALANCE TO HAVE MY PRESENCE IN THIS HOUSE RESPECTED! NEVER WILL THEY BE OPEN MINDED TO THIS CORRECTION THAT MUST HAPPEN IN VIEW ---  
Sirs, Something Very Very Sinister here. I can't believe my mother is such evil but is the only thing that puts everything into perspective. She does not have the legal right to mentally abuse me as she has. She is playing mind fuck games, and I need a person to act as a "HALL MONITOR" to the observance of what she does. I need to know if she can or can not actually control herself in these competitive elements that somehow she has turned on me. The details are grim. The details are real. She thinks they are going to believe her over me apparently. I need a hall monitor to the position to gather an evidenced track as I am becoming open and viewing from outside -- the poplar -- in the view of this equation.

MY SUCCESS IN WHATEVER I AM AS MY MOTHER'S SON IS HER FAILURE. HER SUCCESS IS MY FAILURE.

I need some LEVERAGE that she actually follows through to help me save my life. I am dying, a human no longer breathing dead dying because I cannot have true doctor provider care in my view of life in a trusted opening of doctor/patient-centered communications. I told her I need help because I am not able to do this myself. She has never truly been helped, even though she claims otherwise. I have asked her if she can not help, to get someone else. I am at a loss as to why most recently, as the images reflect -- my bedroom door was kicked in, the interactions with my nephew here, emulating my mother's attempts. She will not leave me alone when I tell her to go away. She attempted to actually enter my room in a sequence that indeed two prior times, I have hard slammed the door to purposefully ajar the door so it could not open. I used the window as my entry. She is manipulating me and will not confess that she lies and that she is in this shitty way that is not my mother but unmotherly. [ that is is a word ].

To the San Bernardino Police and why they have no written response in the audit goes to the heart of the matter I would suppose. Since I have all of my interactions with everything, including the San Bernardino Police on record in my digital online presence journal space which is indeed added as a "search console" into google..... A written response that was not true, because that would be what they would do, individually me especially, I would be able to give counterpointing records of written records from me -- whomever that would be of course would be in very very very serious trouble. Because of me, bark.com,, more likely than not, to a point 85% more likely true, they matter is extreme -- and it continues into 12 hours ago. My mother attempted to schedule a phone meeting with my primary care doctor --set for the 6th of June at 2 pm -- and I keep telling her, that these doctors are not trustworthy. She keeps saying things to me like I am supposed to comply with this bullshit. I keep telling her, I will not comply with such unprofessionalism. There is a 2003 NIH.GOV document I quote from - not a single word I have received from any of the Doctors -- even on the PatientPortal of Kareo for Inland Psych. Something will not break in my mother to be on my side. She will take this situation all of the ways until I die. I am not making it up. I have the evidence -- I am at a loss to know what exactly to do. She does not listen to me and has no thinking processes to adjust herself to that view -- she thinks somehow to make me the bad guy. I am not the bad guy here. I need a person around me that can be more to a point of role -- the way the world works is not the way this family is. The world is something way different than the acceptable and allowances being taken to their extremes. They are playing games

they have no business playing with me. I don't know what to do. I need code enforcement of commons decency and to see if she can handle the control to not do what she does if someone else is actually interfaced into my purposed of mission and school here in this house. I have \$8000 in my account, and I would really consider this an expense and investment into the idealism to break into view -- successfully -- from the sabotage happening in view of family dynamics. Seriously. You said to meet any budget. This is the DESCRIPTION IN FULL OF MY REQUEST. DETAIL. I HOPE THERE IS NO UPPER LIMIT ON TEXT SIZE IN THIS UPDATE. There are so many situations and presentations here ready of substance to these dynamics to bring a PERSPECTIVE of realism. I have been and continue to reach out as best as I can -- HELP ME PLEASE - I AM DYING! DYING - DYING!

I should not be DYING!
